It's Just A Better Gun™

2020 LINEUP
When one shot has to count, more hunters count on CVA®.
CASCADE™ BOLT-ACTION RIFLE

The CASCADE™ is CVA’s first ever bolt-action centerfire rifle. Long the leader in both muzzleloading rifles and single-shot centerfires, CVA® has applied its nearly 50 years of experience into making what we feel to be the best bolt-action on the market at $600 or below.

The CASCADE’s 41 40 carbon steel barrel is finished in a rich matte blue or available in Cerakote® Flat Dark Earth. The series features a threaded muzzle, making it ready for a brake or suppressor whenever you are. The bolt design incorporates a 70° throw for smooth and fast operation, plus generous scope clearance. The two-position safety is conveniently located for natural and instantaneous operation. And loading is a breeze with its four-round, flush-fit, detachable magazine.

Our own synthetic stock is fiber-glass reinforced and has a SoftTouch finish, available in either charcoal gray or Veil Wideland® camo, for easy gripping, even in the harshest weather conditions. The stock has adjustable length of pull by way of a removable spacer – making the CASCADE™ an ideal gun for still-growing youth, small-statured adults, or even the full-sized hunter who wants to shorten his stock to accommodate heavy winter clothing. And dual front swivel studs allow for the use of both a sling and a bi-pod at the same time.

Scoping up the CASCADE™ is a breeze, as it is compatible with two piece mounts built for the Savage® 110 AccuTrigger™ models, which are available almost anywhere.

Sets a new standard for affordable single shot hunting rifles.

SCOUT™ & SCOUT™ TD CENTERFIRE RIFLES

For the hunter who wants a high-quality single shot rifle, the SCOUT™ is the ideal choice. Its sleek, lightweight, and easy-to-operate design sets a new standard for affordable single shot hunting rifles. Every stock is lightweight, 100% ambidextrous, and features CVA’s CrushZone™ recoil pad — a real plus for heavier calibers like the .35 Whelen. Every SCOUT™ model is perfectly balanced in a 100% ambidextrous, composite stock making the gun incredibly quick to aim and shoot. Each rifle includes a DuraSight® scope rail, which accepts most any standard scope rings found on the market today.

For 2020, the new SCOUT™ Black models are our most basic break-action centerfire rifles, but are plenty of gun to get the job done for the budget-minded hunter. Whether you’re looking for a youth’s first hunting rifle or a compact truck, camp or brush gun, the SCOUT™ is a great choice.

NEW!
The PARAMOUNT™ and PARAMOUNT™ PRO are unlike any other muzzleloading rifle on the market. These rifles were developed and designed to handle “super-magnum” propellant charges – and this provides the higher velocities necessary for killing shots at 300 yards and beyond.

The PARAMOUNT™ produces velocities in excess of 2200 FPS but, this is worth nothing without the accuracy to put those shots where they belong. For this, like all premium CVA’s, the PARAMOUNT™ features a custom quality, free-floating Bergara® barrel in Nitride® treated stainless steel. Paired with Powerbelt’s ELR bullets, which were specially designed for the PARAMOUNT™, this barrel can produce incredibly tight groups at ranges previously thought unreachable for a muzzleloader.

The PARAMOUNT™ PRO is CVA’s newest addition to the very popular PARAMOUNT™ line. For 2020, The PARAMOUNT™ PRO comes upgraded from the current PARAMOUNT™ model to be built on a custom quality Grayboe™ Fiberglass Stock, including a TriggerTech® trigger, and finished off with a Cerakote™ finish. Also offered for 2020 will be a .50 caliber PARAMOUNT™ PRO Colorado version and includes a set of Williams® Peep Sights.

**Barrel Bore Guarantee**

Nitride® treated barrel is guaranteed for life against rust pitting. If your barrel ever develops permanent bore damage due to corrosion, it will be replaced at no charge.

**Accuracy Guarantee**

All CVA® PARAMOUNT™ rifles feature genuine Bergara Barrels and carry the strongest accuracy guarantee in our industry. Your new PARAMOUNT™ rifle is guaranteed to be the most accurate muzzleloader you’ve ever shot, or your money back. See CVA.com for details.

**Provides the higher velocities necessary for killing shots at 300 yards and beyond.**

Provides the perfect combination of accuracy and stability for longer range shooting.

**ACCURA® LR AND ACCURA® V2**

All CVA ACCURA® V2/LR models provide a level of accuracy performance that is unequaled by any break-action muzzleloaders on the market today. This degree of precision is achieved because ACCURA® V2 rifles are equipped with premium, custom quality Bergara® barrels. These barrels have quickly become recognized as the most accurate production muzzleloader barrels in the world.

The ACCURA® V2/LR includes CVA’s Quick-Release Breech Plug (which is finger removable). The stocks and forestocks are upgraded with a SoftTouch coating and rubber grip panels, making it comfortable and secure even in the foulest weather. These ergonomically designed stocks are fully ambidextrous and are available in both standard and thumbhole designs. One screw disassembly makes the gun easy to take apart for cleaning or travel. Every ACCURA® V2/LR model comes with a Quake™ CLAW® Sling, a DuraSight® DEAD-ON™ one-piece scope mount or DuraSight® fiber optic sights, and a PalmSaver™ solid aluminum ramrod as standard equipment.

**ACCURACY GUARANTEE**

All CVA ACCURA® series rifles feature genuine Bergara® Barrels and carry the strongest accuracy guarantee in our industry. Your new ACCURA® rifle is guaranteed to be the most accurate muzzleloader you’ve ever shot, or your money back. See CVA.com for details.

**BARREL BORE GUARANTEE**

Nitride® treated barrels are guaranteed for life against rust pitting. If your barrel ever develops permanent bore damage due to corrosion, it will be replaced at no charge.
**BETTER COMPONENTS, BETTER PERFORMANCE.**

Available to be used with Open Sights
The ACCURA® series sports a custom quality Bergara® Barrel, Quick Release Breech Plug (QRBP), Trigger Guard Actuated Breeching Action, Neutral Center of Gravity Trigger, CrushZone® recoil pad, matching Quake® CLAW® Sling, premium SoftTouch stock with rubber grip panels, DirectSight® DEAD-ON® one-piece scope mount, and PalmSaver® Ramrod. The Nitride® treatment hardens the outer layers of the barrel steel and turns it a rich black color, making these barrels impervious to corrosion, inside and out.

Our ACCURA® PR (Plains Rifle) with its 28” Nitride-treated stainless steel barrel, provides a high level of long range performance capability without sacrificing balance and maneuverability.

The ACCURA® MR (Mountain Rifle) with its lightweight design (6.35 pounds), and shorter, more compact 25” barrel, is designed to be easier to carry and more maneuverable than our standard muzzleloaders – with a fit and ease of target acquisition that is reminiscent of a custom-made rifle.

Modeled after CVA’s top-of-the-line ACCURA® V2, the OPTIMA® V2 rifles feature the same trigger-guard actuated breeching lever, internal parts, and trigger. All OPTIMA® V2 barrels are constructed of stainless steel, and are offered in either the standard stainless or with our state-of-the-art Nitride® rust-proofing process. Add in CVA’s Quick-Release Breech Plug (which is finger-removable), 100% ambidextrous stock, and a CrushZone® recoil pad, and you’ve got a gun with more-quality features than any other muzzleloading rifle in its price range.

Equipped with a 28" or 28" barrel, the OPTIMA® V2 is easy to maneuver in the treestand and comfortable to carry in the mountains. It comes standard with a DuraSight® DEAD-ON™ one-piece scope mount or DuraSight® fiber optic sights, and CVA’s solid aluminum PalmSaver™ ramrod.

The WOLF™ is our most affordable break-action muzzleloader, but it’s still packed with features that only CVA® can offer at its price. The 100% ambidextrous stocks are available in either black or Realtree® EDGE™.

The WOLF™ features CVA’s QRBP (Quick-Release Breech Plug), the only truly tool-free removal breech plug on the market today. Even after 20 or more shots, the QRBP comes out with just a twist of the fingers. Try that with any other “speed breech” system. Plus, the break-action breech opens easily with just a touch of the breeching button, which is located in the front of the trigger guard.

The WOLF’s compact and quick-pointing barrel is made of either blued carbon steel or stainless steel and is set-up with a DuraSight® DEAD-ON™ one-piece scope mount or DuraSight® Fiber optic sights. CVA’s solid aluminum PalmSaver™ ramrod is also standard equipment on all WOLF™ models.

MISCELLANEOUS

Muzzleloading Fixing Pin Removal Tool

One end of the tool allows you to remove firing pins on both in-line and in-line/Optima® guns, and the other end allows you to remove firing pins on Traditions® and CVA® guns, and a round-notch fire hole opener. The kit has a heavy-duty spring-loaded push-out pin.

$39.95

Powder Funnel Top

Snap-on powder-molded plastic top. Eliminates spills and allows ease to visualization pouring.

$7.95

Bullet Puller

Plush cotton swabs attach to ramrod for quick cleaning jobs.

$2.95

Straight Line Capper

Catches spills, empty powder, blackpowder residue, and powder. Think of the 45-70 as a 1900-2000 caliber.

$4.95

Cotton Swabs

Fits cotton swabs attach to ramrod for quick cleaning jobs.

$2.95

Powder Funnel

209 Shooter’s Necessities Kit

209 Brass, 90 caps, #11 primers, 209 Cleaner, 209 Powder Funnel, and Cleaning Kit for 209s.

$24.95

CVA Hick

End cap prevents spills, empty powder and residue from getting on blackpowder tools. For field use, when range and useless cleaning tools are needed, this tool is built for the job.

$7.95

Deluxe Cleaning Kit

Complete gun cleaning kits.

$28.95

PalmSaver® Replacement Ramrod

Flexible, non-abrasive ramrods are not affected by water, oil, alcohol, salt, or most acids. Five times stronger than traditional ramrods.

$11.95

Hand turned drills allow easy and complete cleaning of both the large and small fire channels of CVA® and Traditions® breech plugs.

$4.95

QRBP Breech Plug Clean Out System

The ultimate in visibility and durability - these sights are guaranteed for life!

$12.95

209 Cleaner

Catches spills, empty powder, blackpowder residue, and powder. Think of the 45-70 as a 1900-2000 caliber.

$4.95

209 Powder Funnel

Plush cotton swabs attach to ramrod for quick cleaning jobs.

$2.95

Straight Line Capper

Catches spills, empty powder, blackpowder residue, and powder. Think of the 45-70 as a 1900-2000 caliber.

$4.95

Cotton Swabs

Fits cotton swabs attach to ramrod for quick cleaning jobs.

$2.95

100 Shooter’s Necessities Kit

Brass set for loading and cleaning.

$11.95

$11.95

PalmSaver®
BARREL BLASTER CLEANING PRODUCTS

NEVER USE SMOKELESS POWDER IN ANY MUZZLELOADER

Some manufacturers, including CVA, offer a line of products that are unique to muzzleloading because they are made of powder charges and/or propellants. These charges were originally developed for muzzleloading because they are made of powder charges and/or propellants. These charges were originally developed for muzzleloading because they are made of smokeless powder. Smokeless powder is not just a cleaner; it is also safer. Smokeless powder is not just a cleaner; it is also safer.

Barrel Blaster Wonder Gel Solvent

Aerosol-based cleaning gel formula that is specifically designed to clean copper and plastic fouling. The final step in the Barrel Blaster cleaning process is to apply the Wonder Gel Solvent. Spray the foam into the barrel and leave your barrel at the range or at home. No more mess while taking care of a very important step. Stick applicator allows you to apply the Anti-Seize directly on the threads without getting it on your hands. Use to wet cleaning patches for swabbing the plug from seizing up. 2 oz. tube.

Barrel Blaster® Cleaning System Value Pack

The top line of products from the Barrel Blaster System. Often called the "perfect cleaner" for many of the modern muzzleloaders.

Barrel Blaster® Cleaning System
